VAIBHAV BADHE

Flutter Developer

PROFESSIONAL SUMMARY

Passionate Flutter Developer with hands-on experience in building cross-platform mobile applications using Flutter and Dart. Strong understanding of clean UI design, performance optimization, and scalable application architecture. Experienced with state management solutions like GetX and BLoC, Firebase integration, REST API consumption, and delivering maintainable solutions for real-world business problems.

CORE SKILLS

- **Programming & Frameworks:** Flutter, Dart, Firebase, Kotlin (Basic)
- **State Management:** GetX, BLoC, Cubit, Provider
- **API & Backend Integration:** REST API Integration
- **Tools & Version Control:** GitHub, GitLab, Bitbucket, Jira

---

PROFESSIONAL EXPERIENCE

Technical Lead – Flutter

The BAAP Company
Software Engineer / Technical Lead

- Working as a **Technical Lead** for Flutter applications, owning end-to-end feature development and delivery.
- Leading frontend architecture decisions, code reviews, and mentoring junior developers and interns.
- Developed and maintained scalable cross-platform mobile applications using Flutter.
- Actively involved in requirement analysis, task breakdown, and sprint planning.
- Worked across multiple domains including **Finance, CRM, LMS, School Management, and Office Automation systems**.
- Implemented clean, reusable, and responsive UI components following best practices.
- Integrated REST APIs and managed application state using **GetX and BLoC**.
- Implemented Firebase services such as push notifications, analytics, and authentication.
- Collaborated closely with backend, QA, and product teams to ensure high-quality releases.

KEY PROJECTS

Simplify (Vendor Management System)

- Enterprise-level vendor management system for internal business workflows.
- Worked on expense listing, approval flows, and status handling.
- Optimized UI performance using Flutter and GetX.

TreeCoin (Finance Application)

- Finance-based application focusing on banking and loan workflows.
- Implemented BLoC for scalable state management.
- Built secure and responsive UI screens.

Baap CRM

- CRM application for lead and sales tracking.
- Developed modules for lead management, follow-ups, call logs, and campaigns.
- Integrated Android call logs using Kotlin.

School Book App

- School management system covering attendance, fees, visitor tracking, and transport.
- Completed full API integrations and responsive UI development using GetX.

Office Book App

- Office automation and management application used for daily operational workflows.
- Implemented modules for attendance, staff management, and internal tracking features.
- Focused on performance optimization, clean UI, and reusable Flutter components.

EDUCATION

- **Bachelor of Computer Applications (BCA)** – *University of Mysore*
- **HSC / 12th (Science)** - **Pune University**

ADDITIONAL INFORMATION

- Passionate about Flutter and mobile application development.
- Strong problem-solving skills and eagerness to learn new technologies.
- Open to internship and full-time Flutter developer opportunities.
